

tenderpro™

tenderpro™ is a web based tender facilitation system that offers a pre-qualification database as well as a technical specification generator linked to a public technical specifications library. The tenderpro™ specification sheets offer a comprehensive scoring framework with minimum and mandatory validations. These validations assist clients in scoring their financial and technical requirements thus ensuring the procurement at a “Best Cost”.

OUR KEY FEATURES

SUPPLIER MANAGEMENT

Pre-qualifies vendors for tender

TECHNICAL SPECIFICATIONS

Ensures supply = demand
Specifications library

SCORING MATRIX

ANP scaring and weighting in line with PPPFA

ONLINE

Substantially decreases tender turnaround time
